Fold santa sack right sides together and sew the other side and base together. Do not sew the casing.

Take your lining piece fold in half and sew one side and base of the sack. Press.

Turn your Santa sack right side out and place your lining inside the sack. Fold over your casing to the inside of the sack, folding the long edge under to hide the raw edge of fabric, making sure your lining is secured beneath the casing. Sew all the way around.

Press.

Sew around your casing about 3/4" up from the seam, then add ribbon or cord through the casing to finish your Santa sack.
