## TO MAKE SCRUNCHIES

A1156E

50 X 55CM

FAT QUARTER

19" x 21"

A1158E

50 X 55CM

FAT QUARTER

19" x 21"

A1159L

50 X 55CM

FAT QUARTER

19" x 21"

7" (18cm) 3/8" elastic needed to make one scrunchie, add more if making several scrunchies.

# CUTTING INSTRUCTIONS

## To make 1 scrunchie

From the patterned fat quarter cut:

- 1 21" x 4 1/2" (54cm x 10cm) piece

*NOTE: you will be able to make 4 scrunchies from each fat quarter*

# PATTERN INSTRUCTIONS

*Use a ¼" seam allowance throughout, unless otherwise stated.*

Take your fabric strip, fold in half lengthways, right sides together and sew along the long edge, leaving a gap of an inch or so at each end.

Take a safety pin and pin to one short end of the fabric and feed the fabric through the tube as if to turn right way out but stop halfway so short raw edges meet. Flatten out the short ends and sew around the tube to close (you may need to hand sew if opening is too tight).

Pull the tube through the gap to turn right side out.

Using 2 safety pins, attach to both ends of your elastic and secure one end to the fabric opening and feed the other end through the tube.

Machine ends of elastic together.

Close seam with a top stitch and enjoy using your beautiful scrunchie!
